Magdy El-Sibaie, Ph.D.  
Associate Administrator for Hazardous Materials Safety  
Pipeline and Hazardous Materials Safety Administration  
U.S. Department of Transportation  
East Building, 1200 New Jersey Avenue, SE  
Washington, DC 20590-0001

Dear Dr. El Sibaie:

Request to Withdraw the Application for Revalidation of the Bruce Power Application for a Licence to Package or Transport Steam Generators under Special Arrangement

The purpose of this letter is to withdraw the application to the U.S. Department of Transportation for the revalidation of the Bruce Power Application for a Licence to Package or Transport Steam Generators under Special Arrangement by the U.S. Department of Transportation (Reference 1).

Bruce Power has delayed plans to ship 16 steam generators to Sweden for recycling to allow further consultation with First Nations, Métis and others seeking additional information regarding the shipment. Bruce Power will not set a date for shipping the decommissioned steam generators, but will take the necessary time to meet with stakeholder groups to answer any questions they may have about the project.

If you require further information or have any questions regarding this submission, please contact Mr. Maury Burton, Department Manager, Regulatory Affairs, at (519) 361-5291.

Yours truly,

Frank Saunders  
Vice President Nuclear Oversight and Regulatory Affairs  
Bruce Power

cc: Mr. Jim Williams – U.S. DOT  
Mr. Rick Boyle – U.S. DOT  
K. Lafrenière, CNSC
